

An example of the desktop, visual schedule. Velcro tabs are placed at the top of the notebook to keep the notebook cover closed.

Hook velcro (hard) is placed on the bottom of the notebook. Loop velcro (soft) can be placed on the working surface where the notebook will be placed

File folders can be cut in half and 3-hole punched to fit inside the notebook. Loop velcro (soft) is placed on the folders in strips to provide a place to store extra picture symbols.

3-hole punched, plastic pencil cases can also be placed inside the notebook as a place to store extra symbols.
